

Shut down the tractor and remove the key before repairing, servicing, lubricating or cleaning the machine.

Relieve all hydraulic pressure in the hoses. Disconnect the hydraulic hoses from the tractor before going near the machine.

Securely block the machine to avoid any movement while doing the work.

Do not enter the tub while the mixers are turning.

Entering the tub when the mixers are turning will result in death or serious injury.

Do not contact the rotating screws.

1. Attach the mounting bracket (1) to the display holder arm (6).
 - Fasten with 4 of #10 x 3/4" machine screws (2) and nylon locknuts (3).

2. Slide the display (4) into the mounting bracket (1).

Connecting the Display

1. Prepare the power cable.
 - Strip the wires of the power cable (7).
 - Place terminals onto the wires.
 - Place the terminals into the plug.
 - Place the plug/seal and wedge lock into the terminal.
2. Attach the display power wire (7) to the lead on the tractor cable (8) (See diagram below).
3. Connect the power wire (7) to the Power port.

Install the Display to the Mount Arm
